Profile

Data scientist with a background in credit scoring, IFRS 9, and credit policy, now leading an AI-agent pilot at TUM and driving explainable AI (XAI) initiatives. Passionate about turning Machine Learning and Generative AI into transparent, trustworthy products that people actually use — bringing 9+ years of experience translating technical and regulatory findings into clear, actionable insights for both technical and non-technical audiences.

Work Experience

Apr 2026 – Present **Research Assistant (Hilfswissenschaftlerin) – Societal Computing**
TUM, Germany

- Leading a pilot project to develop an AI-agent workflow integrated into Moodle, supporting course delivery, student interaction, and exam reviews, and verifying the accuracy and authenticity of references, including screening for AI-generated or fabricated sources.

2023 – 2025 **Senior AI Steward**
Thomson Reuters, Mexico

- Led the ISO 42001 certification of Westlaw Precision, Thomson Reuters' flagship AI product, driving audit readiness and coordinating certification requirements end-to-end.
- Implemented Explainable AI (XAI) methods (e.g., feature importance, IV, WOE, PSI) to make ML model decisions transparent to business stakeholders.
- Trained model and product owners on key governance procedures, translating technical ML concepts into clear business language.
- Collaborated with data scientists to evaluate the quality, efficiency, and wider impact of ML models in production.
- Automated governance workflows using Python (AWS Lambda), Snowflake, and Power Automate.
- Continuously expanded skills in NLP, prompt engineering, and MLOps through hands-on projects.

Jan 2022 – Jul 2023 **Sr. Risk Manager**
RappiCard, Mexico

- Designed a pricing policy for credit line increases, reducing credit card churn by 5%.
- Calibrated interest rates by product and designed retention campaigns offering rate-based incentives to customers.
- Developed a program to locate client contact numbers using Credit Bureau data, increasing the contact rate by 10%.
- Designed and implemented a credit policy that identified the most viable customer segment for interest-bearing monthly installment offers, reducing past-due balances by 4%.

May 2021 – Jan 2022 **Sr. Data Scientist Manager**
Capa Sofom, Mexico

- Designed the initial strategy for targeting SME prospect campaigns eligible for factoring, using invoice-level scoring models and a KPI framework for financing through an e-invoicing provider (PAC).
- Supported investors in tracking and managing client-related strategies through data-driven insights.
- Designed, developed, and maintained dashboards with key metrics and reports for the Finance and Sales teams, supporting daily decision-making and business continuity.

May 2020 – May **Data Scientist Manager**

2021	<i>Coppel E-Commerce, Mexico</i> - Validated eye-tracking models and proposed Net Promoter Score (NPS) models. - Developed KPIs for multiple business areas in the consumer goods sector.
Apr 2017 – May 2020	Risk Lead <i>Banco Famsa, Mexico</i> - Developed internal credit scoring models for personal loan and micro-business portfolios. - Built predictive models to optimize the collections process, performing backtesting of internal models and data analysis. - Streamlined risk analysis and monitoring using Value at Risk (VaR) models. - Implemented simple, effective credit rating models to support expected credit loss (ECL) under IFRS 9.
Mar 2016 – Apr 2017	Jr. Consultant <i>Deloitte, Mexico</i> - Incorporated credit risk into swap valuation under IFRS 13, using CVA and DVA (credit and debit valuation adjustments). - Performed hedge effectiveness analysis (IFRS 9).
Apr 2016 – Apr 2017	German Teacher <i>TEC Milenio, Mexico</i> Pioneer instructor for German language courses, starting with three groups of 15 participants each.

Job Related Milestones

- Won two company-wide hackathons.
- Delivered talks on LLM monitoring, explainability, and transparency.
- Facilitated a sector-focused event on explainable AI (XAI) in the financial industry, showcasing methods for compliant, interpretable, and trustworthy model deployment.
- Facilitated an 8-week AI Fundamentals programme for non-technical collaborators.
- First Mexican member of the EU AI governance compliance team, collaborating with an international team across the company's full product portfolio.

Skills

Data Science: Machine Learning (Supervised & Unsupervised) — Pandas, PyTorch, Scikit-learn, TensorFlow; Agentic AI & LLMs (RAG, fine-tuning) — structuring and validation metrics; AI Ethics; Automation

Coding: Python (advanced), SAS (advanced), R (beginner), Bash, SQL; GitHub

Cloud & Data: Azure Databricks, AWS (SageMaker – Clarify & Monitor, S3, EC2, Bedrock), Snowflake

Leadership: Team Leadership, Stakeholder Management, Change Management, Communication, Creative Problem-Solving, Breaking Down Silos, Accessible Knowledge Sharing.

Education

2025 – Present	M.Sc. AI in Society <i>TUM Munich (Germany)</i> Intersection of AI and societal issues; interdisciplinary and research-oriented.
2021 – 2022	Data Science Diploma <i>UNAM, Mexico City (Mexico)</i> ML (Supervised/Unsupervised) theoretical and practical course, with 100% hands-on Python.
2013 – 2014	English Diploma <i>ASU, Arizona (USA)</i>
2010 – 2014	B.Sc. in Actuarial Science <i>UANL, Monterrey (Mexico)</i> Intersection of Mathematics, Statistics, Finance and Programming.
